INNOVATION OF PRE-WALL INSTALLATION SYSTEMS

We present an innovated generation of pre-wall installation systems, which, in addition to a number of innovations to speed up installation, also offer increased user comfort for users. An unbeatable 15-year warranty and a wide selection of flush plates.

The product codes remain unchanged.

WC TABLETS DISPENSER INCLUDED

NEW INLET FILL VALVE

SEE INFO 1/2021
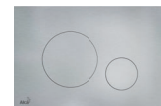

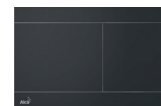

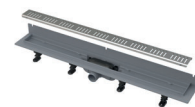

INNOVATION

INNOVATION OF PRE-WALL INSTALLATION SYSTEMS

INNOVATIVE FASTENING OF AN ANGLE VALVE TO THE CISTERN

Easier and faster installation to the water supply

Innovated cistern with a new all-in-one angle valve Shell.

FIXATION OPENINGS

Universal installation options

Pre-wall installation system can easily mounted to plasterboard construction, portable cabins and wooden-construction houses thanks to the holes in the frame.

NEW RELIABLE INLET FILL VALVE

Silent, fast, exceptionally durable

Specially developed for the water pressure range of 0.05–1.6 MPa (0.5–16 bar). Exceptionally resistant to impurities in water.

THREADED RODS WITH GROOVE

Convenient installation of toilet bowl

The threaded rods newly include a groove for a speedier installation.

FIXATION SET EASY LOCK FOR MOUNTING TO THE WALL

EVEN FASTER AND EASIER INSTALLATION

The new design allows a simple mounting to the wall in half of the time.

Exact setting

Possibility of optimal positioning from the front side of the frame with an Allen key.
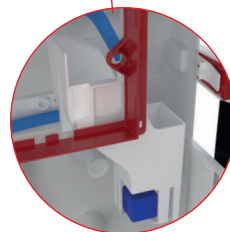

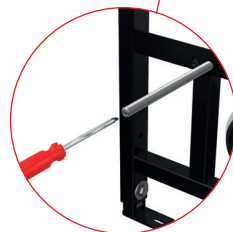

NEW CISTERN HANGING CLIPS WITH TWO-COMPONENT INSULATION

Anti-noise insulation

Two-component material interrupts the transmission of vibrations from the building between the cistern and the frame.

Convenient installation

The tilting of the cistern forward allows the installation into a plasterboard construction, portable cabins and wooden constructions.

WC TABLETS DISPENSER

Perfect hygiene of toilet bowl

Discrete hygienic solution for all types of ceramic toilet bowls. Ideal also for rimless toilet bowls.

100% compatibility

It is compatible with all standard WC modules ALCA (with the exception of Slim and WOOD), inclusive of older types.

- **Made in Czech Republic**
- **Exceptional warranty 15 years**
- **Availability of spare parts 25 years**
- **100% compatible with all ALCA flush plates**

INNOVATION OF WC SYSTEMS SLIM

New space-saving elbow waste connector for faster connection to the pipe

WC systems Slim are full-fledged WC systems. The space saving is achieved with the use of the new elbow waste connector, which guarantees the lowest possible construction depth. At the same time the new installation solution will allow faster connection to the waste system.

Adjustable anchor feet for easier installation AM1101/1200

The frame of the WC system Slim has undergone an overall innovation. It newly includes the adjustable anchor feet locking system for faster adjustment to the desired height.

FLUSH PLATES WITH TILTING MECHANISM FOR EASY INSERTION OF WC TABLETS

For more convenient refilling of WC tablets are the selected flush plates newly equipped with a tilting system. This allows you to easily tilt the flush plate without the use of any tools, insert the WC tablet into the tablet dispenser and put the flush plate back on. The dispenser can be used also with the other flush plates inclusive of older types.

- **Easy flush plates removal**
- **Compatible with all ALCA WC modules, including older types**
- **It provides a hygienic solution in combination with the WC tablet dispenser**
- **Toilet tablet dispenser is included in all WC systems ALCA (except Slim and Wood systems) since 2021**

AlcaPLAST ®

SYSTEM FOR PERFECT HYGIENE OF WC BOWL AND CISTERN

WC TABLETS DISPENSER
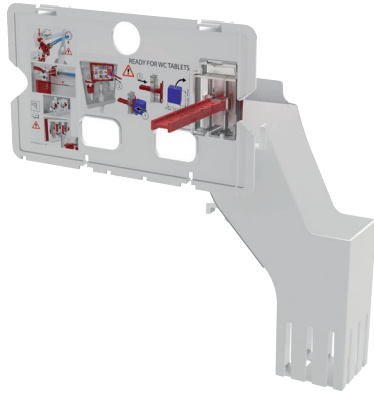

FLUSH PLATES WITH TILTING MECHANISM FOR EASY INSERTION OF WC TABLETS

+
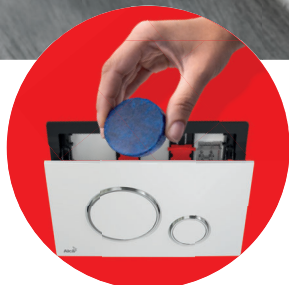

The combination of the flush plate with tilting mechanism and the toilet tablet dispenser creates a system that facilitates keeping the perfect hygiene of the toilet bowl and the cistern.

Your toilet will no longer need traditional air fresheners in the plastic holder on a toilet bowl. We offer a convenient solution that guarantees great results and saving your time.

The toilet tablet melts gradually due to its placement in the dispenser and with each flush ensures hygienic cleanliness of the toilet bowl and pleasant scent in the toilet. The universal solution is designed **for various types of toilet tablets** and can also be used **with older already built-in WC systems**.

OVERVIEW OF FLUSH PLATES
WITH ANTIBACTERIAL PROTECTION

ANTI BACTERIAL

Selected flush plates in black-matt and white-matt finishes come with a new antibacterial surface treatment. The upper transparent varnish contains silver nanoparticles which have antibacterial properties and prevent the spread of unwanted micro-organisms on the surface of the flush plate. When you combine them with antibacterial toilet seats you can prevent the spread of bacteria in your bathroom more efficiently.

PLASTIC SHOWER DRAIN TO THE WALL APZ30 WALL

The traditional plastic shower drain APZ10 Simple is now available with a fixed flange to the wall with product code APZ30 Wall. Choose the solution that best suits your needs – to the wall or into the space.

A shower drain placed to the wall will provide reliable and discreet service. It will allow your pavement to better stand out and highlight the elegance of the shower enclosure. Easier floor sloping in a single direction is just an extra benefit.

The vertical flange with a fixed distance of 16 mm from the shower drain body edge can suit wall tiles of 6-12 mm in thickness.
